END OF SEASON RENOVATIONS 2009

End of season renovations will be carried out in around two months from now. At JMS we are trying to limit the cost of this expensive, but ESSENTIAL work by reducing the cost of ALL necessary raw materials.

Our new warehouse stocks the majority of leading products including Boughton, Ongar, Kaloam and GSB loams. We are a distributor for Johnsons, Barenbrug and DLF seeds and we also stock a variety of fertilisers as well as many other products.

COLLECTED prices are significantly cheaper than delivered costs. This is a reflection of the continued increasing cost of transport. By sending out this circular in July we are giving clubs the opportunity of arranging collection which could save £100's of pounds off the delivered price.

We are still offering a delivered service, this includes our own crane that can deliver goods to the side of the square in water tight packaging. We also offer a 'delivery on the day' service so that materials can be delivered to the square and not have to be 'double handled'. This is at NO extra charge to standard delivery.

We also offer ALL end of season services such as scarification, aeration and top dressing as either a package or as individual services. This is on a first come, first served, basis so please call for information and availability.

Post season work is the main time of the year when improvements can be made to the standard of your wicket. Do not lose the opportunity! - plan ahead.

QUESTIONNAIRE ONE

Win an end of season renovation package for your cricket club worth up to £2000.00 by simply completing the questionnaire.

As part of the package, we will carry out the scarifying, seeding and top dressing of your square. This includes providing all materials i.e. loam, seed, fertiliser, worm killer and fungicide.

In addition to this, we will return twice in the winter months, after germination, and aerate your square and offer a free core analysis.

1. Is your club interested in purchasing any of the following products within the next 5 years?

Mobile covers Sightscreens Mobile cage
